Experience

Copper View Animal Hospital, Riverton Utah

Internship 03/2023 – Present

My responsibility at this job is to learn what I would do as a Veterinarian Assistant. I follow around one of their current assistants and do what they do. I learned hard and soft skills, which I would be required to do in this job. Some of these include drawing up vaccines, cleaning instruments, doing packs, restraining animals, etc.

West Jordan Animal Shelter Spay and Neuter Services, West Jordan Utah

06/2022 – Present

West Jordan Animal Control officers would bring cats and dogs to JATC-North on Tuesdays and Thursdays of each week. These animals would be vaccinated and spayed or neutered. Feral cats would have their left ear clipped. The animals would be picked up by the officers later that same day. During the process, I learned surgical aseptic techniques, surgical assisting, subcutaneous and muscular injections, and anesthesia monitoring.

Bailies Gymnastics, Draper Utah

Teacher, Assistant Teacher

06/2022 – Present

My responsibility is to keep the kids safe and teach them fun skills in fun and exciting ways. I have around 2-8 kids in each of my classes, sometimes more if I have someone new trying the class. One of my most significant accomplishments is teaching levels 1-4 in my first few months of work. I had to use punctuation skills to get to the other events on time. My biggest priority was multitasking by watching each of my class kids and making sure everyone is staying safe while having fun and staying on task.

Skills

Time management, Leadership, Injections, Anesthesia monitoring, Teamwork skills, Communicattions, Flexibility, and Strong work ethic

Education

Riverton High School, Riverton Utah

08/2021 - 06/2024

Currently, I have a 4.0 GPA. I have taken AP, Honors and CE classes every year with A's in each class

- Served as SBO President for the 2020-2021 academic year
- Won an academic writing competition in 2018
